

Transformative Consumer Industries

Be with your shoppers every step of the way.

The power is in the hands of consumers. With access to unlimited data on pricing, discounts, brand, and product performance, plus unlimited shopping experiences, gaining customer loyalty is challenging. You need to be in sync with consumer demand real-time and several steps ahead of the competition. That's where an agile technology platform comes into play. Rizing Consumer Industries experts know retail and fashion because we've been there. And we know SAP technology. We'll understand your organization's specific needs and enable your industry capabilities with end-to-end services for every stage of your transformation.

LifeCycle Pricing

Set an effective pricing strategy to achieve financial objectives at the right time with Rizing's LifeCycle Pricing (LCP). This tool streamlines the execution of pricing strategies allowing merchants to make informed decisions to help manage category profitability, perception, and/or market share.

Manage all pricing rules and shop configurations in a single place. Automatic Price Equalization means reduced time on manual calculations for private label pricing. Real time integrations to SAP optimizes pricing roll out to locations.

Our clients achieve efficiencies with modernized and connected processes.

An international home improvement company

enabled all future solutions across Merchandising, Supply Chain, Selling and Finance while seeing stronger governance and controls fully integrated with their financial system.

A national health and nutrition company

tracked marked improvement in system up time and performance while achieving significant cost savings by reducing manual processes and supporting store operations, purchasing and finance functions.

A regional grocery retailer

improved its performance via modern code and automated updates while allowing for efficient high availability and disaster recovery solutions, all while adding Fiori applications.
