

RISE with SAP for Human Experience Management

Your business is headed to the intelligent enterprise. Don't leave HR behind.

How do workforce decisions impact profitability, and how do financial decisions impact the workforce? Are your people motivated and engaged in transforming the organization? Guide the culture and mindset of your business with Human Experience Management. Rizing HCM experts will help you design the future state, understand the pros and cons of each of your options, and design business transformation solutions that fit your industry. We know HR. And we know HXM. Let us get to know you.

You need actionable insights to optimize the human experience. Lyra allows you to ingest and analyze data from any source, manage archived historical data, accelerating data transformation.

The future of work demands a flexible continually reskilled workforce. LMS Planning optimizes training management and resource scheduling to save time and increase efficiency of SuccessFactors® LMS.

Transform to operational efficiency — efficiency that not only results in cost effectiveness but ensures a business's capability to thrive through uncertainty.

Rizing Employee Experience Insights

Listen with QualtricsXM. Then go one step forward to understand the results and create an action plan to move your organization forward.

We love the work we do. So do our clients.

Rating 4.6/5

"The amount of maturation in our HR processes and how it will make our associates' experience better is huge. Not only do we have world-class solutions with SAP SuccessFactors solutions, we have world-class thinking."

Director Business Operations Platforms, Swagelok Company

"Rizing has been a great partner who constantly provides support and guidance around best practices and guided us throughout the implementation to make design decisions that helped us succeed."

Global HRIS Director, Large Enterprise Manufacturing Company
