- Consumer Products and Life Sciences

Carbon

Project Integration

OmniSpatial

Geospatial Data Collection

Simple Date Manager

Simplified Scheduling

Mercury

GIS and SAP Data Integration

Hydrogen

Mobile Asset Management

Simple Print

Work Order Printing

Project Cobalt

Solution in development that will provide asset planning and deployment capabilities and integrate seamlessly with SAP and other third-party vendors

Solution Benefits

- Ensures everyone is working with the latest information and is on the same page
- Provides planning to accurately estimate costs throughout the project lifecycle
- Facilitates and streamlines the asset build preparation and execution
- Powerful configuration capabilities which integrate seamlessly with SAP

Business Challenges

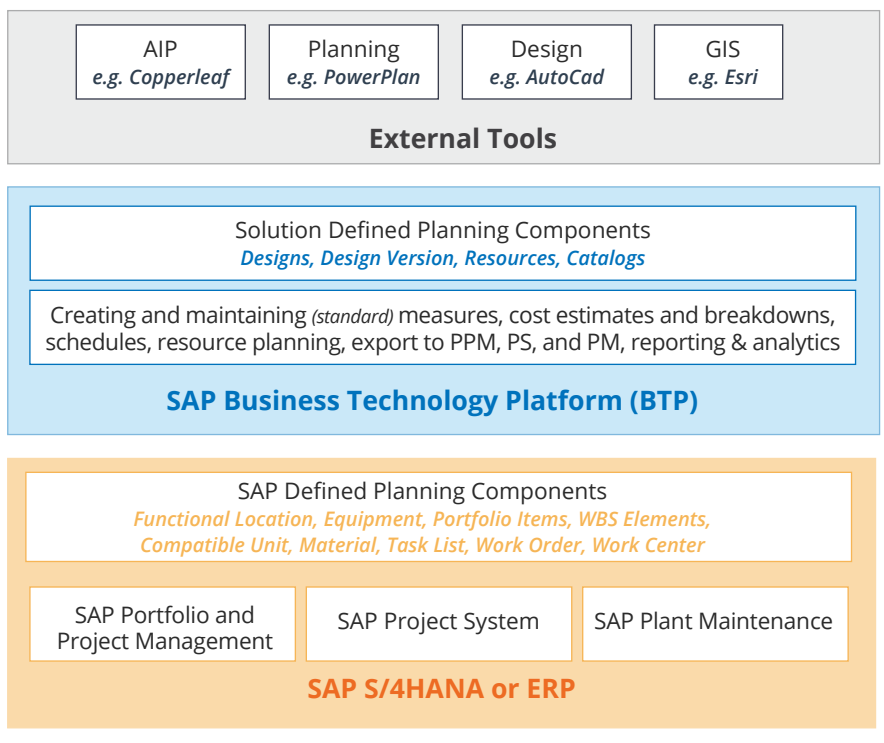

Capital processes in SAP are complex and fragmented due to the lack of a single solution for asset design and estimation.

Custom solutions are frequently developed within individual organizations to handle this.

Disjointed and inefficient process that leads to:

- Increased costs
- Longer project timelines
- Lack of standardization across the organization

Solution Components

Rizing, a Wipro company, in collaboration with a national railway customer, is developing a solution built on SAP Business Technology Platform that compliments and integrates with SAP Portfolio and Project Management, SAP Project System, SAP Plant Maintenance for coherent asset planning and deployment.

Innovate to fit your journey
