

Rizing's SAP® Business Technology Platform Health Check

Are you getting value from SAP's Business Technology Platform?

Get expert SAP® BTP Strategy Input from the Rizing Team

Rizing's SAP® BTP Health Check

Our free ten-minute Health Check can help you wherever you are in your BTP Journey.

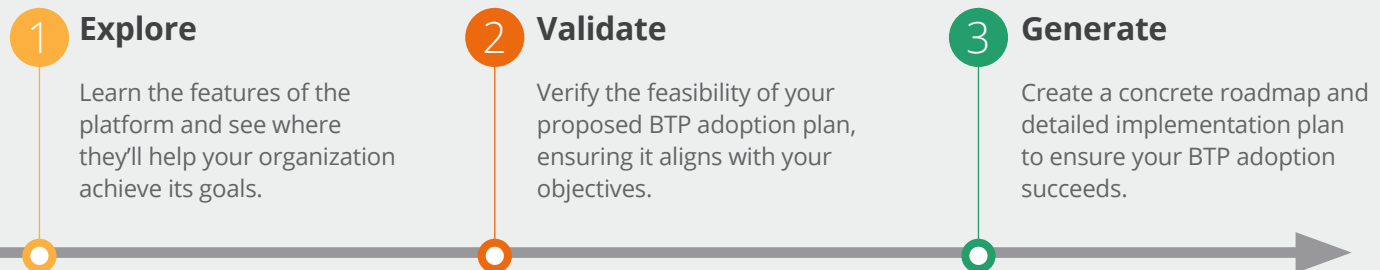

It will ensure your BTP strategy and investment decisions are well-prepared to support your organizational goals.

Our assessment will also help you:

- Understand the BTP cost benefits
- Develop a Clean Core strategy
- Future-proof your SAP environment
- Increase user satisfaction and adoption

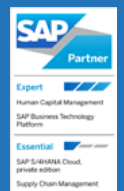

What Happens After the Assessment?

Rizing experts will guide you through your assessment results and discuss potential improvements to your BTP Strategy. The assessment then serves as a foundation for discussions with your internal IT and Business Stakeholders, SAP and Service Partners and can be revisited to keep your strategy on track.

Why Rizing?

Rizing is a founding member of the SAP BTP Advisory Council. We're one of few SAP Partners with expert accreditation in BTP. We can help you best use BTP in your organization's technical, operational, and strategic environments.

Find out how ready you are for BTP

-  Ensure strategic alignment
-  Efficiently allocate resources
-  Optimize implementation efforts
-  Manage risk
-  Build a customized road map

Rizing's Seven Signs of Successful BTP Deployments

- 1 Establish a CoE Mentality**
Create a Center of Excellence (CoE) to foster innovation and excellence within your organization. Find a qualified partner to assist.
- 2 Strategy Assessment**
Complete an evaluation of your business transformation and process optimization strategies.
- 3 Pilot Quick Wins**
Identify specific, manageable process improvements. This will show ROI and tangible benefits that enable larger projects.
- 4 Align to Organizational Strategy**
Aligning a BTP deployment with organizational strategy involves mapping BTP goals to broader objectives and identifying key strategic priorities and drivers.
- 5 Jumpstart**
Accelerate BTP implementation with high-impact changes in resource allocation, advanced tech, automation, and ongoing optimization. Create momentum for wider transformation initiatives.
- 6 Knowledge Transfer**
Create a systematic approach to expand BTP knowledge beyond your CoE.
- 7 Continuous Improvement**
Review, adjust, and optimize BTP processes to stay aligned with evolving business goals and industry best practices.

Develop your SAP BTP Strategy with Confidence
