Built on SAP Business Technology Platform (BTP)
Following the Clean Core approach

New Standard Solution for Asset-intensive Industries

Rizing Cobalt seamlessly integrates with SAP EPPM (PPM/PS) and SAP EAM and covers the complete lifecycle of new Asset-Intensive and major CAPEX programs.

Plan

Unite planning objects and process steps together in one place

Build

Facilitate and streamline asset build preparation and execution

Analyze

Estimate costs and resource planning throughout the project lifecycle

Non-SAP Systems

External Tools

AIP Tool
e.g. Copperleaf

Planning Tool
e.g. PowerPlan

Design Tool
e.g. AutoCad

GIS
e.g. Esri

Rizing Cobalt Specific Components

SAP BTP

Solution Defined Planning Components
Designs, Design Version, Resources, Catalogs

Create and maintain standard measures, estimates, breakouts, schedules, resource plans, reports, and export to PPM, PS, and PM.

SAP Solution Components

SAP S/4HANA or ERP

SAP Defined Planning Components
Functional Locations, Equipment, Portfolio Items, WBS Elements, Compatible Units, Materials, Task Lists, Work Orders, Work Centers

SAP Portfolio and Project Management

SAP Project System

SAP Plant Maintenance

What Rizing Cobalt Does

Rizing Cobalt provides asset design and estimates for capital intensive projects, caters for different versions, and provides end to end integration of a variety of SAP components including PPM, PS, PM in one coherent UX.

Rizing Cobalt Features

Design Capabilities

Design versions and templates
Any combination of planning components
Automated costing and scheduling

Cost Adjustments

Factors, surcharges and escalations

Integration

Export planned costs to PPM and PS
Plan work orders and update assets

Analytics

Design data available to SAC

Business Benefits

- One source of truth for design and estimation
- Traceability of design and costing decisions
- Consistency of master data across all designs
- Evaluation of alternatives
- Improve cash flow predictability
- Improve project portfolio planning
- Rapid user training

User Benefits

- Single seamless process and user experience
- Enables versioning of designs, changes, and alternatives
- Real-time updates of design structure, costing, and schedules
- Simple and fast to use
- Eliminates manual processes
- Faster development of designs
